

Transportation

For parents to find your student's bus stop. Check out this link:
<http://findyourstop.4j.lane.edu/liveweb/webquery/>

When a student is registered for school, the transportation department will be automatically assigning them to be transported to/from a bus stop nearest their home if your residence is a mile from the school. If you do not see any stop close to your address, please give transportation a call at 541-790-7474 and choose Option 1.

Please check a week before school starts as locations and times change as new students enroll.

If you wish for your student to ride the bus to a Daycare or an address in the Gilham neighborhood, other than your home, a transportation request form should be completed. The forms are available in the office.

Kinder parents, please be prepared to provide your students' teacher with their route number, and stop location for bus name tags they will be wearing the first few weeks of school.

All kindergarten students MUST be met in the afternoon, at their bus stop, by someone listed on their emergency contact list unless they have an older sibling that they walk with. If there isn't anyone at the bus stop to meet them, they will be returned to the school.
