

GILHAM SCIENCE

TREETOP ACADEMICS

After-School Enrichment Programs

For the 2018/2019 school year, Treetop Academics will offer after-school classes to 1st-5th grade Gilham students in Science.

Our After-School Programs at Gilham Elementary

About

Treetop Academics continues our on-site Gilham class for the 2018/2019 school year.

Please take the time to read about us and our programs.

Need-Based Scholarships

Visit us online for information about need-based scholarship opportunities.

Need more Info?

Additional information about our classes, staff, camps, and projects can be found on our website at www.treetopacademics.com.

Science

Excellent hands-on, project-based Science class offered on-site at Gilham!

Registration

Our easy registration form is attached to this flier, or enroll electronically at: www.treetopacademics.com

If you have any questions about Treetop Academics or our programs, there is more information on our website or contact our Administrative Director at: jason@treetopacademics.com

Treetop Academics

At Gilham, we offer an after-school class in Science on Wednesdays.

We are dedicated to providing meaningful, hands on, project-based, and student-centered educational opportunities through best teaching practices and age appropriate curriculum to your elementary school students.

Treetop Academics provides academically enriching opportunities that put students at the center of learning.

While providing the tools for learning, our programs are designed to inspire kids to explore & create, use their faculties to the best of their individual ability, and test their theories about their own learning through practice, exploration, and support. In all our programs, your child will be engaged in daily project-based curriculum and activities with a focus on learning and having fun while doing it!

Classes are open to all 1st-5th grade students and we encourage all learners to join our classes, whether a program is beginning subject matter for your student, or continuing. Please read the complete flier for program descriptions and find us online.

Winter
2019

Science: Alternative Energy: Solar!

Wednesdays 2:30-3:45 p.m. Jan. 30th- March 20th Rm: STEM Cost:\$100

Each term Treetop Academics will offer a different themed Science class for students on-site at your school.

Alternative Energy: Solar is part of a multi-term series investigating the principles of alternative energy.

This will be an eight-week class held after-school at Gilham. Each week, students will build projects to learn about, and test, the fundamental properties of using solar as an energy source, including creating solar panels. Each class will present background learning to help students understand the fundamental science behind the projects they are creating. Students will be expected to construct projects and will be able to take them home!

All projects will be age-appropriate, safe, and the class does not require any background experience or expertise, just an interest in learning. We encourage all students to share their ideas, test theories, apply the scientific method, and become engaged participants in class.

See you there!

To Register

For All Treetop Academics programs, please register for classes using the registration form below or by going to www.treetopacademics.com for our online registration.

If using the paper form, please send the registration form along with payment to the address provided.

Our online registration method is similar to the form below, is easy, and only takes a few minutes to complete.

With either the paper or online enrollment, once your registration has been received, you will get an email confirming that we have your pertinent information, and your child is enrolled pending payment.
