

Transportation

For parents to find your student's bus stop. Check out this link: <http://findyourstop.4j.lane.edu/liveweb/webquery/> When a student is registered for school the transportation department will be automatically assigning them to be transported to/from a bus stop nearest their home. If you do not see any stop close to your address please give transportation a call at 541-790-7474 and choose Option 1. **Please check a week before school starts because stop locations and times change as new students enroll.**

If you wish for your student to go to a Daycare or different address, in the Gilham neighborhood, other than your home a transportation request form should be completed. The forms are available in the office.

Kinder parents be prepared to provide you students' teacher with their route number, and stop location for bus name tags their be wearing the first few weeks of school.

All kindergarten students MUST be met in the afternoon by someone listed on their emergency contact list unless they have an older sibling that they walk with. If there isn't anyone at the bus stop to meet them, they will be returned to the school.
