In Fun Club, kids engage in physical, learning and imaginative activities that encourage them to explore who they are and what they can achieve. In addition to providing a safe and secure environment, they participate in interactive learning models that engage critical thinking skills, get assistance with their homework from YMCA staff, have a chance to socialize with each other and form long-lasting friendships that enhance their development, growth and self-confidence.

The Fun Club program takes its afterschool curriculum seriously, but wants the kids in the program to do the exact opposite.
